The chart above represents the amount of clicks that are coming from the top IP Ranges and how many individual IPs are coming from that range. When there is a large discrepancy between total clicks and total IPs used it is an indicator that competitors or a bot network are attacking your advertisements. IP Range Exclusion is currently disabled in your account. This feature will automatically block IP areas with high rates of fraud.

Mobile vs Desktop

There is a major discrepancy between Desktop and Mobile. Mobile accounts for a staggering **75.5%** of fraud detected on the account. It is easier for a fraudster to change their IP on a mobile phone than it is on a desktop device. We are able to flag a fraudulent device and block it immediately, preventing a fraudster from multiple clicks from the same IP.
